

# Chevy HHR Door Handle Repair Kit Instructions

Package Contents: (1) Door Handle, (1) Tube of Super Glue, (1) Drill Bit, (5) Washers, (5) Screws

- 1) Remove the door panel
- 2) Carefully remove the power switch from the door handle (Figure 1)
- 3) Using the included drill bit, carefully remove the 5 mounting points releasing the handle bezel (Figure 2)
- 4) Remove broken handle from panel  
If preferred, trim loose plastic from around mounting points (Figure 3)
- 5) Position the new handle on the panel
- 6) Place washer over mounting point and fill hole with super glue  
Wait 5 seconds for glue to set before fastening screw (Figure 4)
- 7) Repeat for other mounting points (Figure 5)
- 8) Snap power switch back into the handle
- 9) Reinstall the door panel
